***Election/Restrictions***

1. Claim 5 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 9.
2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1,6-9,11 are rejected under 35 U.S.C. 102(a) as being anticipated by Ferrari.

Ferrari shows an apparatus for treadmill training comprising a treadmill (figure 2), stabilizing means :stand (fig 2) or suspension (fig 5), hip and knee orthotics with leg parts driven by hip and knee drives, adjustable cuffs H, a control unit (see col 4 lines 34-40), and hand grips E for stabilizing the patient from falling or tipping.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ferrati in view of Castillo.

Castillo discloses a knee brace having cuff position markings 84. In view of this teaching, it would have been obvious to one skilled in the art to provide the Ferrati orthotic cuffs with markings for patient adjustment purposes.

***Claim Rejections - 35 USC § 112***

7. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Most of the claims recite the awkward phrase "that the" or "that a".

With respect to claim 2, the treadmill rail has not been positively claimed.

Additionally, the parallelogram needs to be structurally connected to the orthotic device.

Claim 10 recites "marked".

In claim 14, "driven in the wheel chair" is grammatically awkward.

In claim 15, line 3, "the desired curves" is not understood.

***Allowable Subject Matter***

8. Claims 2-4, 12,13-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
